DX-IS Series

Intrinsically Safe, Commercial Marine Portables

Available in either VHF or UHF, display and non-display models, the commercial grade DX-IS Series sets the benchmark for next-generation onboard intrinsically safe portables.

Standard features include both analogue and digital* modes of operation, high visibility OLED display, high torque ergonomic controls designed for gloved-hand use, and industry-leading IP68 2m 4 hours submersible rating, to provide excellent reliability and usability even in the most extreme conditions.

Loud and Clear Audio

Using the latest noise reduction technology, our DX-IS portables deliver best in class, loud and intelligible audio, essential when working in high ambient noise environments.

Intrinsically Safe Approved

Approved and certified to UL913, for users who do not need to comply with the European ATEX directive.

Voice Annunciation

This programmable feature gives further assurance to the user that they've selected the correct channel allowing them to focus on the task in hand. It can also announce low battery warning and battery status.

Benefits of Digital

Aside from crystal clear intelligible audio, there is increased range and battery endurance. DX-IS also supports analogue mode ensuring backwards compatibility with any existing analogue radios on board.

Simple Onboard Reprogramming App

With our free, unique and simple to use PC app, you can easily re-program a DX-IS radios whilst still onboard. The user friendly app makes it easy to drag and drop a new programming file from an email to your DX-IS radio(s). This is a simple and intuitive process that can be carried out by non-technical personnel. See video @ entel.co.uk/dx-prog

Migrate to Digital Your Way

DX-IS UHF radios support both analogue and digital technologies. Supporting both technologies ensures backwards compatibility with existing analogue radio systems and a simple migration path to the many benefits of digital communications.

Intelligent Batteries

Entel's intelligent Lithium-Ion batteries are designed to deliver optimum performance and safety. In digital mode the DX-IS radio has a market leading duty cycle of 22 hours from a single charge.

Versatile Range of Accessories

From headsets to speaker microphones and advanced bone conduction technology, Entel offer a complete portfolio of accessories to ensure you stay connected.

Commercial Marine Grade Construction

EN60945 Compliant

Meets essential maritime environmental standards

Precise Control

High torque volume and channel controls give clear feedback and control

Corrosion Protection

Battery terminals use galvanic corrosion protection to ensure optimum efficiency

IP68 rated

Submersible for 4 hours to a depth of 2 metres, critical for marine usage

Locking accessory connector

All DX-IS accessories incorporate a robust locking connector to further safeguard the user

Built to Last

Saltwater anti corrosion coating on chassis, designed for the maritime environment

Positive Feedback Controls

Ultra tactile buttons that give positive feedback, even with a gloved hand

Gold Plated Contacts

To ensure reliable operation in the harsh maritime environment

Key Features

- ✓ Commercial grade construction
- ✓ IP68 submersible
- ✓ Digital and analogue modes
- ✓ Outstanding range and performance
- ✓ Crystal clear audio
- ✓ High contrast white on black OLED
- ✓ Simple on-board reprogramming app
- ✓ Extensive range of approved accessories
- ✓ Audio accessory optimisation
